

4.2 MVAR 4.16 kV, Two stage automatically switched substation style capacitor bank.

Features Include:

- EXD Heavy Duty Capacitors
- Expulsion Fuses
- NRV switches with Pre-insertion resistors
- Two stage automatic control

30 MVAR 138 kV, Substation Style Capacitor Bank.

Features Include:

- EXD Heavy Duty Capacitors
- Fuseless Design
- Current Limiting Reactors
- Unbalance Protection

3.6 MVAR 12.47 kV, Three Stage Automataically Switched Substation Style Capacitor Bank.

Features Include:

- EXD Heavy Duty Capacitors
- Current Limiting Fuses
- Current Limiting Reactors
- Unbalance Protection
- Ground Shorting Switches
